18th October 2017

To Leaving Cert and Computing Teachers,

Greetings again from Dundalk IT. The Department of Computing Science and Mathematics at Dundalk Institute of Technology will be running a 3 day

Computer Science Autumn Camp

from the 1st to the 3rd of November. This camp will be a lot of fun, but has two main objectives;

- Exposing Students to a real 3rd level environment including lectures, tutorials and labs, and
- Exposing students to Computer Science in this setting, hopefully helping them to make an educated choice for the CAO.

The first two days cover:

- Hardware,
- Networking,
- Client Side and Server Side development, and
- Databases.

Students have the choice to attend the 3rd day, during which they will get to build a full blown sensor driven Computer System using the Raspberry Pi 3. At the end the students can take the computer home.

Students have to apply individually at <http://outreach.comp.dkit.ie/autumn-camp/> .

We would appreciate if you could pass this information along to your Leaving Certificate Students. Please find attached an A4 and A3 sized poster detailing the event.

Many Thanks in advance

Yours sincerely,

Christian Horn
Head of Department of Computing Science and Mathematics
Dundalk Institute of Technology
